12	Larry	BP absolutely must not drill near the #AmazonReer or jeopardize this ecosystem in any manner. Of all companies BP should have improved its business model to increase environmental awareness & taken action to reduce its footprint & avoid potential damage to pristine, fragile areas
13	Jen°	That reef is not something you or anyone else own, it is not a possession. As caretakers of this planet we have a responsibility to protect and look after it for our children and our children's children. <input type="checkbox"/> Oil is an outdated and dying fuel, invest in renewables for all our sakes
14	Anne	Back off!!! Not even a please in this case.
15	Anthony Lovell	Oil's old hat, move with the times and invest in renewables, before your competitors do!
